Nunez del Prado

Join Andean Mystics, Juan and Ivan Nunez del Prado (father and son team) for three workshops that provide the keys to step into a 'direct and personal' experience of the "world of living energies," a world previously relegated only to highly trained Mystics. The seven levels of spiritual and personal development of the Inka offer a cosmology complete with structure and steps to walk a path of personal power based in energetic perception. By combining quantum physics, ancient energy techniques and modern psychology, Juan offers a framework that changes one's worldview to understand one's personal experience in terms of living energy, creating health, harmony and happiness. According to the Inka Prophecy, humanity is currently on the brink of transition from one level of consciousness to another.

This course provides the complete training in moving to these heightened states of perception; a training that offers a combination of theoretical and experiential practices that were passed in a long lineage of mystics to Juan and Ivan. This course provides the teachings and initiation into the prophecied '4th level.' The Andean Path is an indigenous earth-honoring tradition grounded in the belief that the world is made of 'living energy.' Workshops are offered in succession to develop energetic skills in the three aspects of the Andean Path beginning with "Right Side" (Inka 101), "Middle of the Path" (Inka 102), and "Left Side" (Inka 103). Workshops are open to anyone, no previous knowledge necessary, beginning first with Inka 101, then 102, then 103.

Juan and Ivan Nuñez del Prado

Juan is the foremost expert in the world on the Andean mystical tradition and the Q'ero Indians of Peru. As an Anthropologist, mystic, and past University professor, he is one of the most important spiritual figures in South America. His father, Oscar 'discovered' the Q'ero, the last direct descendants of the Inka in 1949. Since 2005, Juan has worked together with his son Ivan who has been a student of the Andean Path since seven years old, being initiated in Q'olloriti, one of the most powerful sacred sites in the Andes. It is said that you can never be a powerful Paq'o until you have 'presented yourself' to Lord Q'olloriti at least once. Working as a team, each representing their expertise in one aspect of the path – Juan working the right, mystical aspect and Ivan working the left, magical aspect – they model the powerful Inka concept of yanantin, harmonious relationship of aspects that are different.

The Andean tradition teaches ancient wisdoms, energy-transforming exercises and rituals needed in 2012 and beyond for the raising of consciousness prophesied by the Inka.
